-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-22 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) ____ is/are allowed.
- 6) ☒ Claim(s) 1-22 is/are rejected.
- 7) ☐ Claim(s) ____ is/are objected to.
- 8) ☐ Claim(s) ____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on ____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. ____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7, 11, 15, 18-19, and 21-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Doneen et al. (US 4,906,837) cited by Applicant.

Re claims 1-5, 7, and 18-19: Doneen discloses an article of manufacture for detecting motion and a method of making an article of manufacture, comprising a substrate (52 in Fig. 2) having a plurality of light pipes (54, 56, 58, 72, 74, 76, and 78 in Fig. 2), wherein each light pipe is capable of transmitting light from a first location to a second location (col. 4, line 56 +). Further, Doneen discloses the light pipe is capable of transmitting light from a plurality of locations to a single location, from a single location to a plurality of locations (See the splitter junctions 73, 75 and 77 of the light pipes in Fig. 2).

Re claims 6 and 15: Doneen discloses the light pipe and the substrate are the same material and wherein the light pipes are separated from the substrate along at least a portion of their length by a refractive index boundary (col. 4, lines 5-22).

Re claims 11 and 21-22: Doneen discloses a method of making an article of manufacture by creating a refractive index boundary between the pipe and the substrate and a method of transmitting information through a plurality of light pipes in a substrate as discussed above. Further, Doneen discloses a step of interfering with the transmission of light

Art Unit: 2875

through the light pipe before the light arrives at the second location [a plurality of lenses is interfering the transmission of light (col. 2, lines 32-42)].

3. Claims 7-10, 11-14, and 18-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Stanford (US 6,082,886).

Re claims 7-10, 11-14, and 18-20: Stanford discloses an article of manufacture comprising a concrete block substrate (12 in Fig. 1) and a plurality of light pipe imbedded in the concrete substrate (20 in Fig. 3) so that there is a refractive index boundary between the light pipes and the concrete substrate. Further, Stanford discloses an external, visible light source (22), wherein light inputted into a first end of the light pipe is guided along the light pipe and emitted at the second end of the light pipe.

Furthermore, Stanford teaches a method of making the article by embedded the light pipe in an uncured concrete substrate (col. 4, lines 5-39).

4. Claims 11 and 16-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Daniel (US 4,234,904).

Re claims 11 and 16-17: Daniel discloses a method of making an article of manufacture, comprising a step of creating a refractive index boundary between a material (optical fiber) and a substrate (cloth threads). Further, Daniel discloses a method of making an article comprising a step of combining at least one light pipe with a plurality of fibers to form a woven fabric (Fig. 4 and col. 2, lines 32 ++).

Art Unit: 2875

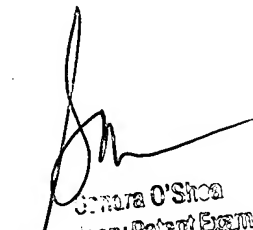

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Guiyoung Lee whose telephone number is 571-272-2374. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sandra O'Shea can be reached on 571-272-2378. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
